

Transforming the lives of chronically ill children, and their families, shifting all from **surviving to thriving - until cures are found.**

Greetings!

With apologies to Julia Roberts, I think the world needs a little more EAT, LOVE, BOUNCE.

If you're a genuine foodie, or like me, aspire to be one, check out *Best Bites for Bounce!* There is no more delicious way to make a difference to kids/families who deserve a chance to bounce. Join us for some amazing EATs; your taste buds will thank you.

As February draws to a close, you will feel the LOVE generated by the amazing donors & sponsors of the many program services delivered this month. From bowling to basketball, from DIY pizza to theater, hearts were warmed over and over.

As always, we continue to invest in Bounce to help others BOUNCE. Join us in welcoming three new additions to our volunteer & staff teams.

EAT, LOVE, BOUNCE - what more do we need?
