On A Mission To:

transform the lives  
of chronically ill children,  
and their families,  
shifting all from surviving to thriving.

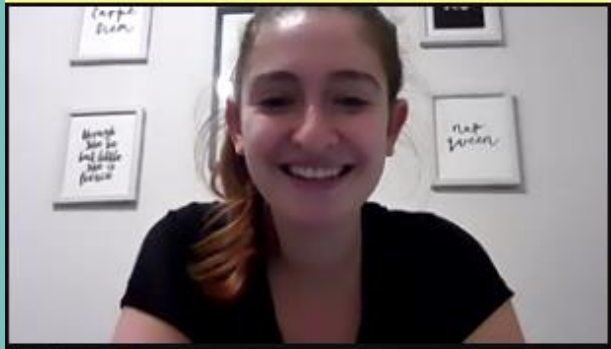

*from everyday, to once-in-a-lifetime,  
family adventures:*

- Specially designed to include children with complex medical needs, healthy siblings, and parents
- Multi-family group fosters friendship, the safety of not being stared at, and a feeling of belonging
- Bounce handles all planning and logistics so families can attend with minimal stress – and try things they would never attempt on their own
- The Result: adventurous family time that is fresh, exciting, and fun!
