Transforming the lives of chronically ill children, and their families, shifting all from surviving to thriving

Pediatric Chronic Illness: A Hidden Epidemic

Nearly **1 in 5** U.S. children battle a disease for which there is no cure.

In the hospital there is a wealth of clinical and social-emotional support.

Before Bounce, there was an acute lack of support both at home & in the community.

Wheelchairs Went Everywhere!

Bounce brought in ramps to allow wheelchair riders to go everywhere, including the lawn where we crafted, connected, and picnicked.

And it turns out they were another source of fun! 😊

Wheelchairs Got Wet!

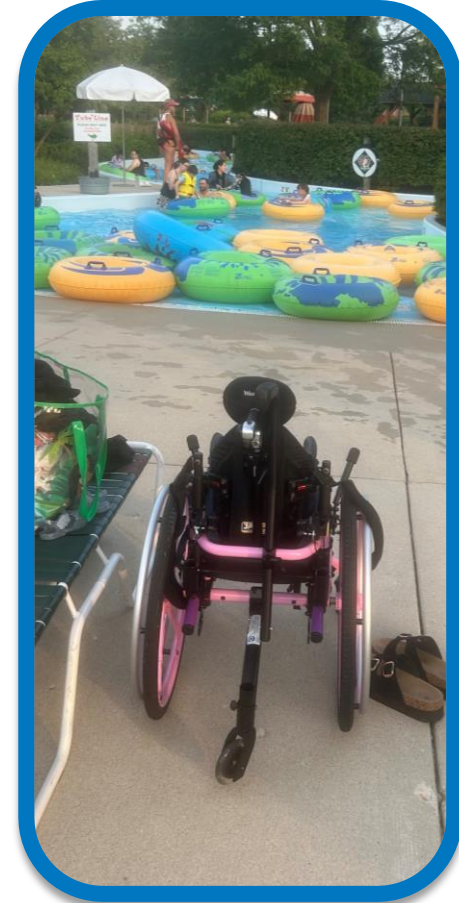

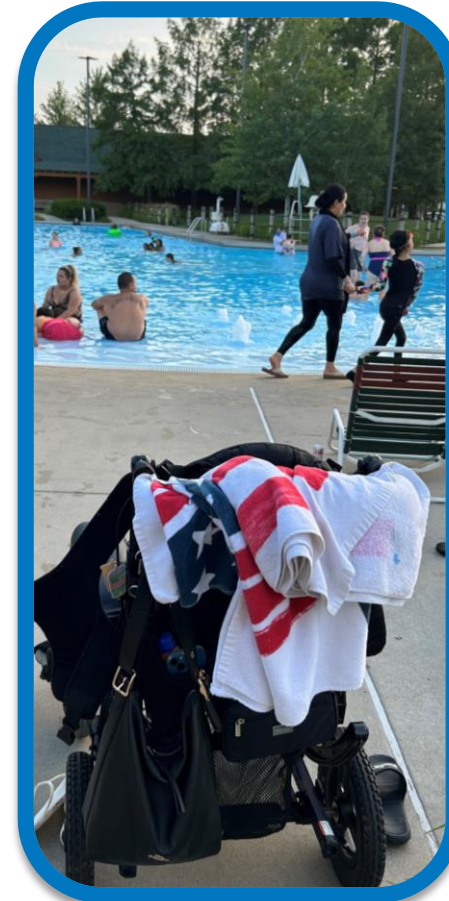

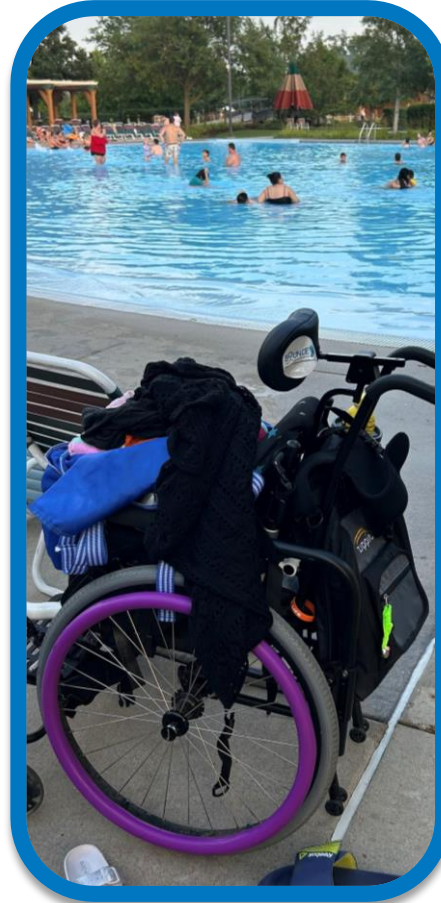

Brothers, who both ride wheelchairs due to a rare genetic disorder, got to splash together

I always get emotional at this event because it brings so much joy to my heart to see all the children be children and enjoy a beautiful day - without any worries.

Thank you, Bounce!

~ Melissa, Bounce Parent
