Transforming the lives of chronically ill children, and their families, shifting all from surviving to thriving

Pediatric Chronic Illness: A Hidden Epidemic

Nearly **1 in 5** U.S. children battle a disease for which there is no cure.

In the hospital there is a wealth of clinical and social-emotional support.

Before Bounce, there was an acute lack of support both at home & in the community.

A Favorite Thing that is Our Color:

And DIY Golf Balls Were the Perfect Keepsake Craft

Gave us a chance to get away from the everyday routine. The last few months have been extremely difficult on us due to the loss of my grandmother.

~ Fritzie , Bounce Parent

Courses are not *really* ADA friendly so Bounce remapped this one to include only the wheelchair friendly holes ensuring the whole family, and all families, played together.

It was perfectly set up, which was very beneficial to our family.

Plus, the staff and volunteers were so friendly and helpful.
