Pediatric Chronic Illness: A Hidden Epidemic

Nearly **1 in 5** U.S. children battle a disease for which there is no cure.

In the Hospital there is a wealth of clinical and social-emotional support.

Before Bounce, there was an acute lack of support both at home & in the community.

Create Joy & Laughter that Builds Resilience

What & Why?

Children battling chronic illness are repeatedly quarantined, especially before surgery, after treatment, and during flare-ups.

When doctor's orders require "lock-down", boredom, frustration, anxiety quickly set in.

Holidays are especially hard – while the world is out celebrating, Bounce Kiddos, Siblings & Parents are stuck home, alone, and forgotten.

Bounce Back Kits provide vital relief.

St. Pat's is about fun & luck - important resilience-building themes.
