*Transforming the lives of chronically
ill children, and their families,
shifting all from surviving to thriving*

Pediatric Chronic Illness: A Hidden Epidemic

Nearly **1 in 5** U.S. children battle a disease for which there is no cure.

In the Hospital there is a wealth of clinical and social-emotional support.

Before Bounce, there was an acute lack of support both at home & in the community.

What are they & why do they matter?

Children battling chronic illness repeatedly face lengthy stays at home, especially before surgery, after treatment, and during flare-ups.

When doctor's orders or medical necessity cause "shut-in", boredom, frustration, and anxiety quickly set in. Holidays are especially hard – while the rest of the world is out celebrating, Bounce Kiddos, Siblings & Parents are stuck home, alone and forgotten.

Designed to combat isolation and loneliness, every *BBK* contains DIY family projects, Arts & Crafts, STEM Projects, custom-made Activity Books, Kitchen Projects, and a Signature Item, like a book, game, or movie that can be used over-and-over again – everything needed to have your own celebration even if you can't leave home.

Why “Kids Take Over the Kitchen”?

To honor a little-known holiday, and more importantly, to give young chefs everything they need to get comfortable making nutritious meals. Selecting from nearly 35,000 items, each Bounce Family receives a Kit custom-made to fit their unique needs.

This Kit was designed as a delicious way to teach kids a wide variety of kitchen skills that ultimately give parents a break. Kids that are self-sufficient in the kitchen can confidently feed themselves in a healthy fashion and help parents prepare meals.

They might even develop a new hobby!

Included are: Signature Items; STEM Projects; Arts & Crafts; Decorations; Kitchen Projects; Snacks; DIY Projects; and a custom designed Activity Book

– in short, everything needed to Take Over the Kitchen!
